The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following ports, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Governmont, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter

No enterprise commends itself as in a greater degree remunerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent,* and in the Philadelphia *North American, Press,* and *Telegraph, Ledger, Inquirer, Age, Bulletin*, &c., &c.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtaeus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manutacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not a good tonic, useful in disorders of the digestive organs, and of an intoxicating beverage, but is a great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON.

Judge of the Supreme Conrt of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it.

Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eigth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. Jackson on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 per bottle; Or, a half dozen for $5.

Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. ANNUAL REPORT OF THE COMMON SCHOOLS OF BEDFORD COUNTY.

I shall confine myself strictly to the suggestions from the State Superintendent, as published in the June number of the *Journal*, in making this report, and shall first speak of Educational Progress in the county, during the past year. We have repeatedly asked for more new houses, better furniture, more school apparatus, more graded schools, higher wages, and more competent teachers; but above all we have hoped for better, more thorough, local supervision. During the year we have realized all that could be expected, in regard to change in houses, furniture and apparatus. No change has been made in the number of our graded schools. Those graded, have given general satisfaction. As soon as the buildings, now in progress of erection in several parts of the county, shall be completed, we shall be able to report, at least an *increase* in the *number* of graded schools.

2. *Houses and Grounds.*

In 1867, we built four new houses; in 1868, twelve; this year, twenty new houses were erected, one tenth of the whole number in the county. Of these, two were built in Bedford township, at a cost of $1807; three in Cumberland Valley, at a cost of $1335; one in Hopewell, $350; one in Juniata, $400; two in Monroe, $780; two in Napier, $858; one in West Providence, $377; one in Saxton borough, $1000; one in St. Clair, $350; two in Southampton, $676; two in Union, cost not ascertained; two in Middle Woodbury at a cost of $1275.

They are all substantial and comfortable buildings. With two exceptions they occupy good sites and have suitable play grounds.

The one built in Saxton is the best of the kind in the county. It is a frame building, 42 ft. 3 in. long, 26 feet, 6 in. wide, and 16 feet 8 in. from floor to ceiling. It contains two anti-rooms for extra clothing, and the whole building can be thoroughly ventilated. The site is a beautiful one, and when the grounds are properly enclosed and improved, a work the directors intend doing during the coming year, they will be second to none in the county. Our people are beginning to give more attention to school grounds.—Convenience of access, beauty of location, and suitable play grounds are no longer overlooked, when a new school house is to be built. As fast as "these monuments to the carelessness or incompetency of those who placed them on bleak hill tops, or steep mountain sides, in rugged ravines or swampy flats," rot away others, more favorably located, take their places. The directors of Schellsburg borough, have, at length, secured a good site, and are erecting a fine brick building, for their schools. For the last three years no public school was taught here. Private schools were, however, liberally supported.

3. *Furniture and Apparatus.*

Twenty five houses were supplied with new and improved furniture. Ten were supplied with apparatus. Although the directors have, during the past three years, manifested great willingness to furnish apparatus, and have in many parts of the county supplied all that the means of the districts would warrant, yet there is room, need, for more. We want better black boards in many of the schools. Charts and outline maps are needed in others.

It is true, teachers do not always use the apparatus at their command—some men would not cut wood, though you placed an ax in their hands—yet most of our teachers are ready and willing to use apparatus to some good purpose if it is supplied them. The teacher who, about the middle of his last term, had not brought the outline maps from a near neighbor's house to a school room, and who had "no time" to go and procure crayon, although he had a large class in Geography and Arithmetic, does not belong to this latter class.

Teachers.

3. *Qualifications and Salaries.*

Two hundred and three teachers were employed, one hundred and forty males, and sixty three females.—Some change has been made in the *average* qualification. Last year the average grade of certificates was 2.29.—This year is was 2.27. If we were guided by these figures alone we should say there was no change. But when we look at the improvement in the methods of instruction; at the zeal manifested in their work; at the increased number of educational books and papers read; at the attendance at our county and district institutions; at the increased amount of *general information* our teachers have acquired, we must conclude that they, to-day, stand higher in their profession than they did one year ago. The dead ones, are nearer their graves, the live ones are more alive. Wages are about what they were one year ago, nor was it reasonable to expect a change when we recollect that last year wages were increased in almost every district over that of the preceding year. See report of 1868.

In not a few instances, however, where teachers showed the true spirit, have their wages been advanced. Taking all things into consideration, the age, experience and qualification of the teachers; the sparseness of our population and sterility of soil in many sections of the county, and the consequent high rate of taxation, necessary to keep open the schools for a minimum term even, wages have been as high as could be asked.

A few teachers did not receive sufficient compensation, some received too much. Our most expensive teachers are those who received the smallest salary.

Seven seems to be a fatal number among the teachers of our county.—Each year, for the three past, that number have proved "total failures." Out of the whole number employed, one hundred and forty had attended a County Normal School; twelve a State Normal, and one hundred and ninety five had studied some educational work. Of this number, however, we found upon examination, that many studied to little purpose. Fifty one had never taught; eighty seven had taught less than one year and sixty nine had taught more than five years.

5. *Work done by the Superintendent.*

Examinations.—Twenty-four public and four private examinations were held. One hundred and ninety eight provisional and five professional certificates were issued. Twenty two applicants were rejected and six certificates were renewed. Eighty four directors and one hundred and thirty-four citizens were present at the examinations. The applicants in Monroe and South Woodbury passed the most creditable examiaation.

Visitations.—Two hundred and twenty two visits to schools were made.—All were visited, except eight. These were not open when the other schools in the vicinity were visited, hence they were not reached. The visits averaged 1.84. hours. Thirty-four directors accompanied me. I met ninety-nine patrons in the schools. In nine of the districts I had neither patron nor director to visit with me, and in a few only, were the schools visited by directors as the law requires. Nine Secretaries acted as district Superintendents, with very satisfactory results in every instance.

Educational Meetings. I held twenty-five educational meetings, attended five district, and three county institutes and taught ten weeks in the county normal school.

Work done by other Agencies.—Our private schools are still doing good work. Thirty-eight were open during the year, employing forty-two teachers. Twelve hundred and nineteen children attended these schools, paying $6555 tuition.

The County Normal School, employing five teachers was again liberally supported. One hundred and thirty one students attended, ninety six of whom taught during the winter. This school was first opened in August, 1863. Then, many of our best teachers had already gone into the army, or had engaged in some other more lucrative occupation. After a vigorous effort on the part of the superintendent, then in office, eighty-four students were obtained, sixty three of whom taught during winter of 1863-4. Since that time the school has been steadily increasing, numbering at no time less than one hundred and thirty students. It has had, and still has its enemies, among those who, through ignorance, believe that the "county superintendent is making a *fortune* out of it." To such it may be well to state that the income from the normal during the last year was—after deducting tuition, not collectable, $723, and the expenses, salary for teachers, advertising, &c., $750, leaving $33 to be paid out of the superintendent's pocket. This is about what the school *pays* the superintendent annually. The only object in view when the County Normal School was begun, and the only one now in view, was to bring out the young men and women of the county, who were willing to qualify themselves to teach. We wanted teachers. Teachers qualified for the work. The Normal has in a measure supplied that want. But for it, many schools must have remained closed. We cannot, here, help thanking the friends of education all over the county, who have always aided us in keeping this school open; who have aided us in getting out young men and women from our public schools to the Normal, and who have encouraged us in every way.

Institutes.—Chief among the other educational agencies in the county are the district and county institutes. Of the former we have six, attended by fifty-eight teachers; all of these, except one, did good work. The great want felt in all of them was the presence of some experienced conductor. One leading spirit in each district, competent to carry an institute through all its stages, is what we need; one who will *teach* the younger, the less experienced.

The county institute was, in number of teachers attending and in general interest, more successful than the one held last year. The principal instructors and lecturers, were, Prof. H. B. Zimmerman, Ex-Supt. of Juniata Co., Prof. R. A. McClure, of Chambersburg, Prof. A. Stevens, of Pittsburg, Prof. J. M. Reynolds, of Lancaster, Donald St. Geo. Fraser, of North Point, and Miss F. M. Haley, of Boston.—The whole work done by the convention was of a practical character.

The Press.—The papers of the county, the *Bedford Inquirer*, *Bedford Gazette* and *Bedford County Press*, have taken more interest in educational matters than heretofore, publishing editorial notices of the Normal School, full accounts of the proceedings of the Teacher's Institute, annual report of the co. superintendent, and other matters relating to education.

The Clergy.—Two years ago we had a sermon on education from the Presbyterian pulpit, Bedford, Pa. Since then the clergy have remained silent on the subject. Why this is, I do not know. It is a fact that we cannot deny, that our ministers seldom, if ever, visit our schools. In vain we cast our eyes down the list of "visitors," in the teacher's report book, for the name of the clergyman residing in the district. It is not there. Have the teachers neglected to note the visit? Surely the clergy, above all others, should have the highest interest in the success of our public schools. These boys and girls will soon grow up to be men and women. They are to be the future "stay and support" of the church. Would it not be well, then, for our Ministers to call on the teacher, to encourage the scholar? There is too much of this "standing back" on the part of those, who, if they would but come forward, could be of powerful aid in this work.

Schools.—Of the whole number open, twelve are graded; one hundred and seventy nine were well classified; in one hundred and eighty one the books were uniform, and the Bible was daily read, either by the teacher or by the scholars and teacher, in one hundred and fifty nine. There are still twenty two schools in which the books are not uniform. The directors of these have decided upon a uniform series of books, but their exclusive use has never been enforced. Every teacher knows how the usefulness of the school is impaired by this ruinous policy. It might be sound policy to withhold the state aid from such schools until the directors thereof comply with the law in this particular. The law is plain, and the wisdom in it so manifest that no intelligent board should hesitate one moment in fulfilling it to the letter.

Obstacles in the way of Improvement.

Few new obstacles have presented themselves, during the year. Those most in the way, and the means calculated to promote improvement, I referred to at some length in my last report, to which the reader may turn. "We must have more efficient local supervision," is the cry we hear everywhere. But how is this to be brought about. In my judgment there is but one way; elect three men for each district—the best men *in the district*. Let these form a board, president, secretary and treasurer; select from among these the one possessing the most knowledge of schools, as district superintendent, whose duty it shall be to visit the schools regularly, at least once a month. Pay the board for every day actually engaged in transacting the business of the district. Make them sworn officers. This subject has been agitated again and again in our conventions, and it seems about time that we have some legislation on it.

If directors, as they are now elected, would carry out the laws strictly, and if parents would look to the interest of their children, supply them with proper books, see that they make good use of them, send them regularly to school, uphold the teacher, encourage him by their visits and kind words, most of the obstacles in the way of improvement would disappear; but this is rarely done, directors are not paid for their services and they frequently do the least possible amount of work. Not receiving any pay themselves, they often feel illiberal when teachers are to be employed; not receiving any pay, when the superintendent calls on them to visit schools with him, he often hears the excuse, "it won't pay me to ride through the storm."

I am more than ever convinced, that many teachers fail because the schools are not visited oftener by some efficient officers. The superintendent can at most, in a county like this, visit all the schools, only once, in a term of four months. Many schools must, therefore, remain unvisited until the third month. The teacher makes mistake after mistake, until the time arrives when the superintendent reaches the school. He finds it a failure, which might have been prevented had the school been visited in the first month.

Concluding Remarks.—I take this opportunity of thanking my many friends, throughout the county for their many kindnesses toward me during the past three years. To the Department, I am sensibly indebted for the many words of advice, and the promptness with which they have always answered when called upon. I tnank each and all and wish them abundant success.

H. W. FISHER.
County Sup't.

THE BOYS: WHAT IS TO BE DONE WITH THEM?

"What shall I do with my boy?" is one of the most frequent inquiries made by parents nowadays, and a most important inquiry it is; for it cannot be denied that never before have boys had such trivial opportunities of making useful men of themselves. We mean by this, says the Philadelphia *Evening Herald*, that the abolishing of apprenticeship system, has been disastrously upon the ... unless some... the old ap... operating most u... rising generation, and ... thing is done to remedy existing defects, it is very apparent that the next generation will boast of fewer really skilled American workmen than will be consistent with our great industrial interests. The subject is one of vital interest not merely to the boys themselves, but to the country at large; and it demands the careful and serious consideration of every well-wisher of American industry. The professions are over-crowded while merchants are be sieged by hosts of boys who have been taught to believe that the calling of a mechanic is not a respectable one, and that, on the other hand, the very acme of respectability is attained when they succeed in obtaining situations as errand boys, or prospective salesmen or clerks. Now, this demands a remedy. What this remedy is, or how it is to be secured, we are not prepared to say; but it is very evident that one of the very first steps towards securing it is to impress boys with the idea that there is a great furure for skilled mechanics in the United States—not merely steady, plodding workmen, but men who have intelligent heads to direct skillful hands. Every day we are more and more sensibly confronted with the fact that of the number of competent mechanics now employed in our workshops and factories, comparatively few are of American birth and education, at least much fewer of them than should be the case. Now, this should not be. The dignity of American labor should be rapidly and imperatively mantained; and the only way to maintain it is to so educate the rising generation of mechanics, that, in all branches of skilled labor, they will not only be able to compete with but excel all competitors, and hold in their own hands the reputation of American mechanics, which was so well and fully established years ago, but which, for the reasons we have named, is likely to suffer heavy detriment.

HOUSE AND FARM.

Cultivation of Pole Beans.—Every year some parties are greatly exercised about the supply of bean poles. The cultivation of Lima or Carolina. or Butter beans, or any other of the climbing varieties has been regarded as inseparable from a supply of suitable poles, and by good, or bad management, many of these disappear between the close of the Autumn and the opening of the Spring, when they are again called into requisition, and then there is sometimes trouble to get a fresh supply. A writer in the *Horticulurist*, gives his experience on the subject, tells how at the time of his bean planting, he had no poles and for some cause or other failed to procure a supply, and then bethought him that probably the laying of a small quantity of apple brush in the neighborhood of the hills might afford the vines a support, and he spread his apple brush over the ground accordingly, and found the plan worked so well, that he follows it from preference. It appears, that the plants have an advantage from the shade given by the vine in trailing over the brush, because the ground is kept moist and at an even temperature, and moreover there is the obvious advantage of protection from high winds, which often play havoc with the tall poles in the bean patch. The experiment is worth trying. We believe it will be found to be all that is represented. We know, that years ago a practical gardener told us, that he had long since abandoned the use of bean poles in raising Limas, that he planted them in hills and pinched the ends of the vines. His representation was that the yield was greatly increased, and the cultivation more convenient.—*Jour. of the Farm.*

Caughs are Curative.—It is nature's cure, and to smother cough without removing what causes it, is to hinder nature, and take away all chance of cure. When a man clearly has the consumption, coughs a great deal, has been bringing up yellow matter for a long time, if his cough should subside, he will inevitably die in three or four days; because the cough helps to bring that matter out of the lungs, and keep them clear; but when the cough becomes so weak or so unfrequent as not to remove the matter as fast as it is formed, the lungs begin to fill up with it, air cannot get in, and life ends.—The only hope of curing consumption is to promote cough on the one hand, so as to get the lungs clear of the matter in them to prevent the formation of more. But the popular sentiment is, that in proportion as there is less cough, the chances of life are increasing, and willingly and hopefully the patient takes what "cures his cough," and is thus led a willing victim to the grave of his own digging. So much are men, with all their boasted intelligence, like the silly creature which feels itself safe when it can hide its head in a hole, to be crushed the next instant in the jaws of its relentless pursuer.—*Hall's Journal of Health.*

The Effect of Charcoal on Flowers.—A horticulturist in England, purchased a rose bush full of promising buds—the flowers however were of a faded hue. He covered the earth in the pot about an inch thick with pulverized charcoal, and was surprised, some days afterward, to find the blooms of a fine lively rose color. He repeated the experiment another season with the same result. He then tried the powdered charcoal upon petunias, and found that both the white and colored flowers, and the white petunias became veined with violet tints; the violets became covered with irregular spots of a blush or almost black tint. Many persons who admired them thought they were choice new varieties from the seed. Yellow flowers appear to be insensible to the influence of charcoal.

FOR THE CAMPAIGN!

RALLY IN YOUR MIGHT!

Read, Think and Act!

Our appeal is to the intelligent, the candid and the independent. We ask only that people shall *understand* the issues before them, and that, understanding them, they reflect upon their duty in the premises and then discharge what they believe to be that duty when they come to cast their ballots. In order that the questions to be voted upon at the coming election, may be fairly and fully presented to the public, the BEDFORD GAZETTE will be furnished for the campaign, at the following low rates:

One copy	$0.50
Three copies	1.20
Five copies	1.75
Ten copies	3.00
Twenty copies	5.00

In all cases the cash must accompany the order. We respectfully ask the active men of our party to get up clubs for the campaign at every post-office in the county. In no other way can the good cause be more effectively supported than by the circulation of Democratic newspapers. It ought to be an easy matter to raise a club of twenty at any post office. Address MEYERS & MENGEL, Bedford, Pa.

WHAT IS A LUXURY?

By a sort of common consent, both the high tariff party and the free-traders agree that silk goods are a luxury, and it is therefore supposed that they stand highest on the list of textile fabrics upon which taxes are imposed under our tariff, the rate being 60 per cent *ad valoren;* but this is very far from being the case.

The duties upon carpets are much higher. Upon a cheap Tapestry carpet, costing in England 57 cents per yard, the duty is 41 cents, or 72 per cent; upon a Brussels it is 69 per cent, and upon bockings, druggets, feltings, and other low-priced goods the duties are so high as to amount to prohibition. Upon coarse, heavy broadcloth the duty is stated by Mr. Edward Harris, a most skilful manufacturer, to amount to 135 per cent.

Upon a cheap poplin, a fabric made of cotton and worsted, costing 7 pence sterling, or about 14 cents per yard in England, the duty is 125 per cent.

Which is the luxury? the low-priced poplin dress, the coarse broadcloth, the common carpet, or the silks and satins at 60 per cent duty.

Why this difference? because an attempt has been made to deprive consumers of their supply of the cheap clothing and combing wools of other countries by a duty which is almost prohibitory, while the carpet wools are still admitted at a very low rate; next we have attempted to force our own manufacturers to use wool raised here at far higher cost, and unfit for many purposes for which foreign wools are absolutely needed, and have thus crippled and almost destroyed several branches of manufacturing which were successfully established under a low tariff; and lastly to compensate the wool manufacturer for all the disadvantage thus imposed upon him by forcing his customers to pay double or treble price for the goods they need.

What has been the result? An over-supply of one kind of wool chiefly raised by us; scarcity and dearness of other kinds, and a check to the diversity of employment in the manufacture of woolen and worsted goods in this country, with a good measure of protection to the spinners of Europe, to whom we have sent a full supply of cheap South American and other wool. The furniture and wooden ware which we used to sell to South America for wool are now made in Bohemia and Germany; the boots and shoes in France, and the cotton goods in England; and as our direct trade has been almost destroyed, we have ceased to send the butter, cheese, and flour which used to form a considerable portion of every South American and South African cargo; but we pay for what we still import from these and other countries either in gold or cheap bonds. For the latter we have taken out a patent, and no other country cares to compete with us, as they all admit that we have succeeded in establishing our own discredit in the most complete manner possible.

CANDIDATES.—John H. Uhl, A. J. Colborn and Hiram Findlay, Esqs., are candidates for the nomination for State Senator, and Valentine Hay, Frederick Grof and W. D. Roddy, Esqs., for Legislature, in Somerset county.

THE ALARM CRY IN PENNSYLVANIA.

Says Brick Pomeroy, when the ship is aleak, her timbers strained and cracking under every heavy sea, her rigging going with every returning squall, the cabin passengers always begin to pocket their valuables, blow up their life-preservers, and get them nicely and firmly strapped under their arms, with a sizeable bladder of wind right under their chins. The *State Guard*, a Radical paper, in Harrisburg has just completed that necessary preliminary work, and now, with its chin well up, it sings out:

"The Radical party has one more chance."

We don't believe it. And we have grave suspicion that the *State Guard* really holds our opinion in relation to the future of the Radical party. It does not speak out as plainly on the subject as we do. It's not to be expected that it should, while it remains on board the awfully leaky hulk; but it does very well for a Radical paper. It declares that unless that party adopts a new rule, there will be serious trouble at the coming election there. We agree with it. In fact we would have agreed with it if it had gone further and unburdened itself entirely, by declaring that it would have insurmountable troubles, turn any way it can.

The advice of the *State Guard* would do very well if the party were only "up for a first offence," but it won't do for a party after a long career of continuous wrongs, when in the hands of the police, and up for trial before the tribunal of public opinion. Copious weeping and tearful promise of reform won't do. It's "played out." You have entered that plea for power too often to render it effective now. And in proof that the *State Guard* is not in earnest, we quote a portion of its queerly cheering effort, which will be felt by Radicals as cruelly severe. In addition to the absolute necessity for adopting a new rule, it says the party must

"Adhere to an old pledge"

Could there be anything said more bitingly sarcastic than that, even by the most open enemy? Will the *Guard* please lengthen the above icicle which it so gracfully slips down the heated Radical back, by asking the shivering party to name an instance in which it ever adhered to any pledge. It has promised to revive trade; but it has only heaped additional burdens upon its previously overladen back. It promised to give encouragment to healthful industries, but it has only busied itself with taxing them at every step. It promised to reduce the premium upon gold; but it sent it kiting as soon as in again, and has kept the string at its utmost tension ever since. It promised to reduce the debt; but it has increased it more than eleven millions during the past year. It promised to lessen taxation; but it has voluntarily and villianously added more than eighty millions to the gold-interest-bearing portion of the foul pretense. And, now that we think of it, there is another thing that it did, which was not a promise, and may therefore possibly be done—it shouted "free trade" right into the ear of Pennsylvania iron.

Iron is an excellent conductor of more than electricity, and that shout, treacherous though it was, was an awful shock to Pennsylvania Radicalism. FORNEY hasn't quacked since and it knocked the more portly Mr. GREELEY endwise, through a five column epistle on an exalted tariff for the protection of Pennsylvania at the expense of the United States.

No; promise of adherance to old pledges, or promise of adherence to any that may now be made, won't do. The sturdy agriculturalists, miners and mechanics of Pennsylvania have *heard* too much in the Radical line of promise of reform. They have resolved upon a change by which they can *get* reform; where they have often got it before, and where they will get it again, and that is with Democracy.

SOME discussion having been aroused upon the question whether Gen. Grant did or did not snub Minister Bassett by declining an interview, has brought out the latter individual, who gives the details of the disputed interview. He says:

"When I went into Mr. Grant's office I found him talking with Mr. Cresswell—both smoking cigars. They both received me pleasantly, and I was given a cigar by Mr. Grant, the remains of which I still have. Our conversation was free and cordial. Mr. Grant asked me several questions about the resources of Hayti, its history, customs of the people, etc., which I answered as well as I knew how. Mr. Grant opened a map of the West Indies as big as that table, and referred to it. During our conversation Mr. Cresswell also examined a cyclopedia regarding some points that arose."

The President of the United States, hunting up Hayti on the map, and making inquiries about it of a confessedly ignorant negro, while his Cabinet Minister despairingly rushes into a "Cyclopedia," is about as fine a burlesque upon the important ceremony of dispatching Envoys, as could well be conceived. If the Government is to be "run" in this style, it will soon run away.

EX-PRESIDENT JOHNSON.

Ex-President Johnson does not propose to give the Tennessee Radicals any rest. Some of his speeches, delivered since his retirement from office, have been very powerful. The ex-President has for a long time had the reputation of being one of the best stump speakers in the country, and his Clarksville speech was fully up to any of his previous efforts. It is very evident that Mr. Johnson will yet be a power in Tennessee politics. In a recent speech, he is reported to have said:

I think the Radical party are disintegrating and crumbling away. I am opposed to making a soft bed for them to recline on in death. The offices are not enough for all, money is getting scarce, and things lying around loose have been all picked up. Now they are filled with dissensions and dissatisfaction, and are fighting for the little residum of plunder. Our duty is to give it to them now, to press home upon them and hasten their death by adherence—by bold, manly, courageous adherence—to the essential principles of true republican government.

If ever a party was corrupt it is the radical organization which at present rules this country. It has scarcely one single element of honesty or decency within its folds. There are doubtless honest well-meaning men in its ranks, but they are deluded and cheated by the rascally leaders, who have committed the most outrageous and horrible crimes, and all, too, in the name of liberty, humanity, and religion. They have murdered the innocent, plundered the poor, and robbed the country. But we hope and believe that the days of their power are drawing to a close. The people begin to see through their hypocricy and comprehend the extent of their meanness. They have made every effort in their power to destroy the country, and have brought it to the very verge of ruin. Now, however, the people are waking to a sense of their danger, and they will rally to save the country, and to preserve the free institutions transmitted to us by our fathers. In the darkest hours of the past eight years, we have had faith enough in the conservatism and intelligence of the American people to believe that they would not allow the country to be entirely destroyed, that after the passion and hate engendered by the war had worn off, they would come to their senses, and see how badly they have been fooled, and how their patriotism had been played upon for the basest of purposes. And we have stonger reason now for such hope and belief than ever before. The light is breaking. The American people are coming out from the worse than Egyptian bondage of radicalism. The blows which radicalism will recieve at the polls next October, in this and other States, will stagger the monster, and before the time for another Presidential election rolls round, the heel of Democracy will be planted upon its neck. Either radicalism or the country must die, and we believe that the people prefer that the country should live.—*Titusville Star.*

RIGHT SENTIMENTS.—The following letter from the Hon. Salmon P. Chase will find a responsive echo in the breasts of all who favor a union of "hearts and hands," as well as union of States:

CHARLESTON, S. C., May 29, 1869.

Dear Sir: Your note inviting me to attend the ceremony of decorating at Magnolia cemetery the graves of the brave men who fell in defense of the Union during the recent civil war only reached me this morning. I am very sorry that I cannot be with you on this most interesting occasion; but it is now too late to make the necessary arrangements.

The nation cannot too tenderly cherish the memory of her dead heroes, or too watchfully guard the well-being of those who survive. And may we not indulge the hope that ere long we who adhered to the national cause will be prompt also to join in commemorating the heroism of our countrymen who fell on the other side, and that those who now especially mourn their loss, consenting to the arbitrament of arms and resuming all their old love for their country and our country, one and indivisible, will join, with us in like commemoration of the fallen brave of the army of the Union?

The dead are not dead. They have only gone before, and now see eye to eye. Why may not we all borrow from their sacred graves oblivion of vast differences, and henceforth unite in noble and generous endeavor to assure the honor and welfare of our whole country, of all her States and of all her citizens?

Very respectfully, yours,
S. P. CHASE.

LET US HAVE A CHANGE! The Radical party has been in power so long that it has become hopelessly corrupt. The poison of its rottenness infects every branch of business, every artery of trade. Times are dull, money is scarce, the farmer gets no price for his produce, the laborer is out of employment, the mechanic fails to sell his wares, the merchant does business on a long trust. To continue the Radicals in power is to prolong this state of things. Men of Bedford county! Look to your interests and get ready to vote for a change.

WE again call attention to the prospectus of the GAZETTE for the campaign. Let every post-office have its club and let it be as large as possible. The terms are so low that every Democrat in the county who does not now take the GAZETTE may become a subscriber. We hope our friends will at once go to work to solicit subscriptions for the CAMPAIGN GAZETTE.

PERIODICALS.

DEMOREST'S ILLUSTRATED MONTHLY.—This excellent Magazine now fulfills as nearly as one Magizine can, all that a lady wants of one, as far as an assistant in her house, in her wardrobe, and in her care of her children. Every department is complete and perfect in itself, showing the immense amount of labor bestowed upon the whole. The "Ladies' Club" alone gives more sensible advice and information than all the rest of the Magazines put together. $3 per annum, with a premium. Published at 838 Broadway, N. Y.

DEMOREST'S "YOUNG AMERICA."—YOUNG AMERICA is one of the most popular of juvenile publications; there is a freshness to it that we find in no other, and a variety that satisfies even the desire of children for novelty. Half the good things to be found in other children's periodicals have been derived from this, which seems inexhaustible in its suggestions. One of its very best features is the interest it excites in children, by allowing them to appear as correspondents in its columns. It is well worth the small sum asked for it, of $1.50 per annum, with a premium. Published at 838 Broadway, N. Y.

DUTIES OF FARMERS.—Farming is not only a profession, but of all professions, it embraces the widest range of scientific propositions and practical facts and affords the widest field for the exercise of the philosophic and analytic mind. Instead of the brightest boys being sent to a medical college for a field worthy of their talents, they should be educated in the science, and instructed practically in the duties of agriculture.

It is a prominent duty of the farmer so to pursue his calling as to inspire a respect for it in the minds of his children, and so train them that they shall be able to pursue it successfully, which can only be effected by his availing himself of every advantage resulting from the discoveries of science and the accumulated experience of the past. This will at once strip farming of almost every disagreeable feature, and clothe it with attractions possessed by no other business.

As at present conducted there is a large amount of very disagreeable labor required to be performed in farming, and it is mainly to this fact that we owe the desertion of that business for others by country boys. Science and human skill must relieve this, and undoubtedly will, if the farmer will avail himself of their aids.—*Ex.*

BRIEF NEWS ITEMS.

The boiler in a shingle mill at La Point, Lake Superior, exploded a fortnight ago, tearing the building to pieces and scattering it in all directions, killing outright three of the workmen and seriously, if not fatally, injuring six others. Stahl, the fireman, was blown a hundred feet into the air, and fragments of the building were found a half mile away.

Two brothers, David and Thomas Buchanan, recently left Yazoo, Miss., in company with James Terrel. They had previously had a quarrel during the day and all were drinking. About two miles from town they fell to fighting with their pocket knives, and Terrel was killed outright, but, not until he had inflicted dangerous wounds upon both of the Buchanans, who are now lying in a very critical condition.

SPECIAL NOTICES.

Schenck's Pulmonic Syrup,

Seaweed Tonic and Mandrake Pills, will cure Consumption, Liver Complaint, and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the liver, and put it to work: then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens in the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe, a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall-bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care), that will unlock the gall-bladder and starts the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the Alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills, or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Cataarh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has Consumption, of course the lungs in some way are diseased, either tubercles, abscesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood: then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure consumption.

When there is no lung disease, and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient without the Pulmonic Syrup. Take the Mandrake Pills freely in all billious complaints, as they are perfectly harmless

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparations with the same remarkable success. Full directions accompanying each, make it not absolutely necessary to personally see Dr. Schenck, unless the patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond Street, New York, every other Tuesday, and at No. 35 Hanover Street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half-dozen. Mandrake Pills 25 cents a box. For sale by all druggists.

OUR ASSORTMENT is now full and complete, we have every desirable style, kind, and size.

EVERY ONE CAN BE SUITED from the stock—we have all the different style of cut, adapted to all tastes, including the medium and subdued preferred by many, as well as the latest and most fashionable style.

OUR LARGE STOCK enables us to keep at all times a full assortment, so that all can be fitted at once without delay.

OUR PURCHASES ALWAYS BEING MADE FOR CASH, and having purchased largely of late, since the decline in woolens, our customers share in the advantage we have thus secured.

OUR SALES BEING FOR CASH EXCLUSIVELY, we have no bad debts to provide for, and are not obliged to tax the paying customer to make up losses through those who do not pay.

OUR READY-MADE GARMENTS are superior to any other Stock of Ready-Made goods in Philadelphia, any one can be as well fitted from them as by garments made to order anywhere, they are as well made, and equal in every respect, and much cheaper. Being manufactured

BY THE HUNDREDS AND THOUSANDS, they can be sold cheaper than when made up singly; but for the accommodation of those who prefer we have also a

CUSTOM DEPARTMENT TO MAKE UP TO ORDER, with a choice selected stock of Piece Goods, comprising all styles and qualities, Foreign and Domestic, which will be made up to measure by competent and experienced Cutters and Workmen in a style equal to the best.

SPECIAL NOTICE.—Style, fit, and make of our garments surpassed by none, equalled by few. All prices guaranteed lower than the lowest elsewhere, and full satisfaction guaranteed every purchaser, or the sale canceled and money refunded.

TO CONSUMPTIVES.—The Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription, will please address REV EDWARD A. WILSON,
Williamsburg, Kings County, New York.

TWO FARMS AT PRIVATE SALE.

NOW IS THE TIME TO BUY CHEAP REAL ESTATE.

A FARM IN MORRISON'S COVE.

A SPLENDID FARM WITHIN TWO MILES OF BEDFORD.

The subscriber will sell at private sale, on very very reasonable terms, and at reduced prices, the following described, very valuable real estate, viz:

A TRACT OF LAND situated in Morrison's Cove, about one mile from Lafayettsville, and four miles from Woodberry, in Middle Woodberry twp., containing 102 acres, more or less, about 45 acres cleared and under fence, with one and a half story log house, log barn, blacksmith shop and other outbuildings, adjoining lands of Jackson Stuckey on the east, Christ. Koehenderfer on the north, John Keagy on the west, and Ignatius Brant's heirs on the south This can be made one of the neatest and most pleasant little farms in the Cove with very little expense. There is an abundance of water, plenty of fruit and splendid timber upon it—all that is necessary to make it desirable.

ALSO,

A MOST EXCELLENT TRACT OF LIME STONE AND RIVER BOTTOM LAND, within two miles of Bedford, containing 228 acres, about 150 acres of which are cleared and in a high state of cultivation and the balance well timbered. There are excellent new building erected thereon with a well of never failing water at the door. There are two orchards of choice fruit upon it. 75 acres of meadow, (River Bottom) can be cultivated with trifling expense. The upland is in a good state of cultivation, well set with clover and under good fence. There is sufficient timber upon it to pay for the farm several times if thrown into the Bedford market. Bedford, Pa., June 11, 1869.

LET EVERY MAN, WOMAN AND CHILD
READ THIS!

Their own interests are at stake in this matter. Everybody has suffered so much from the accursed CREDIT SYSTEM, if system it can be called, that I intend to offer to everybody a panacea for the evil in the future.

On and after the first day of June, 1869, I will sell goods EXCLUSIVELY FOR CASH OR PRODUCE. No doubt some customers may be lost to me, but I flatter myself that it will be only those from whom I cannot collect present accounts.

All goods will be sold at about one-half the profit now paid by consumers. The people often complain of Bedford prices being higher than elsewhere, and it is doubtless true, to some extent, for the reason that good customers have had to pay for others' goods with an additional profit on their own.

Let an intelligent community sustain me in this enterprise and they WILL SAVE FROM TEN TO FIFTEEN PER CENT. ON EVERYTHING THEY CONSUME.
may14m3 H. F. IRVINE.

NOTICE.—All accounts not settled by the first day of June, 1869, either by cash or note, will be put in the hands of an officer for collection. Friends will please take notice, and by so doing will save trouble and costs.

The brevity of life is beautifully illustrated in that so many of our fair, festive fellows dye daily.

"Little Favorite" Cigar at Crouses' for 5 cts; Rose 2 for 5. Try them, Cairns Row.

Beer brewed by Hodel is a beverage beating "benzine," being far freer from fire. To test this tale take two tumblers and try them.

There will be services in the Lutheran church next Sabbath, morning and evening, at the usual hour, by the pastor, Rev. J. Q. McAtee.

Bedford merchants are filling full fine store rooms with well selected goods. See what they say in the advertising columns of the GAZETTE.

HUNGRY.—One of the nasty "organs" of radicalism, of this county, talks of defeating the excellent ticket nominated by the Democrats. Bah! "Polly wants a cracker!"

The editor of the Fulton *Democrat* lost his umbrella. Served him right. What business has an editor to "sport" so great a luxury as a "gingham umbrella."

DIED OF DYPTHERIA.—Mr. Enoch Hixon, near Emmaville, Fulton county, lost four children in four weeks, by dyptheria. Mrs. Hixon narrowly escaped death from the same disease.

ERRATUM.—In the County Superintendent's report, published on our outside, under the head of "Institutes," the phrase, "the less inexperienced" should read "the less experienced."

FESTIVAL.—A festival under the auspices of the Schellsburg Lodge, No, 419, of Good Templars, on Friday and Saturday evenings, June 18th and 19th. All are invited to attend.

Bedford has long since needed a first class cigar and tobacco store. This want has been fully supplied by D. W. Crouse, for at his Resort will be found such a variety as was never beheld before.

According to a law passed by the last Legislature, all sewing machines belonging to seamstresses are exempt from levy and sale, on execution or distress for rent.

Christian Albright, an old and respected citizen, aged about 72 years, dropped dead, at his residence in Londonderry township, this county, on Monday last, the 14th inst.

BITTEN BY A COPPERHEAD.—A son of Mr. Kanavels, about four years old, was bitten on Saturday last, by one of those venomous reptiles, but under the efficient treatment of Dr. Trout, of this place, bids fair to recover.—*Fulton Republican.*

SOME SNAKES.—The *Mountain City Times*, Cumberland, says that a party of workmen employed in barking trees in that county near Gilpintown, have killed the extraordinary number of *seventy-two rattlesnakes* this spring. There must be a good crop of snakes over there, this year.

DASTARDLY OUTRAGE.—We learn that on last Sabbath some scaly scoundrels broke into the Bald Hill church, in Snake Spring township and took various articles therefrom. The perpetrators of this act of vandalism should be ferreted out and punished to the full extent of the law. This is the second or third time that this church has been robbed.

ARANDALE HOUSE.—This pleasant house has been greatly improved, inside and out, since last season. The proprietor, Mr. Joseph Alsip. has left nothing undone that could add to the comfort and convenience of his guests. Visitors will find the Arandale a very pleasant place to spend the summer months.

FATAL ACCIDENT IN COLERAIN.—On last Thursday, at a barn raising, in Colerain township, while the rafters were being put up, one of them slipped and struck Mr. Jonathan Diehl, knocking him to the ground and killing him almost instantly. The day before a Mr. England met with an accident, at the same building, by which one of his ankles was dislocated.

ALL IS VANITY.—No doubt many of our readers have often seen the time when they could fully agree with Hans Breitman in saying:

"Oh, vot ish all dis earthly pliss?
Oh, vot ish man's seeckness?
Oh, vot ish various kinds of dings?
Und vot ish habbiness?

Ve find a pank note in de shtreedt,
Next dings der pank ish preak;
Ve folls, und knocks our outsides in,
Ven ve a ten shtrike make.

"REGULATOR."—It is truly astonishing to see the rush to the "Regulator" since the arrival of new goods at that place. Irvine has succeeded in making the cash system, under which he is doing business, a perfect success.—He is selling the finest and cheapest groceries to be had in Bedford. All his goods he sells cheap and fast.—There is still room for more customers and all are invited to call and see his unrivalled stock of goods.

SEVERELY INJURED.—We are sorry to learn that on last Friday, Hugh Moore, Esq., our candidate for county Treasurer, was seriously injured, in the following manner: he was leading a horse to water when the animal reared and struck him with such force as to crush him to the ground. Mr. Moore had his left shoulder knocked out of place and sustained severe injuries in the back. Under the skillful treatment of Dr. Reamer, we learn that the injured man is improving.

NOTICE.—All persons who have found money supposed to have been disposed of by the burglars of the bank at Clearfield, either at the place of their arrest or on their way from Centreville to Bedford, who have not already done so, are requested to report the same to Sheriff Steckman, or District Attorney E. F. Kerr, on or before Saturday next, with proper affidavits to the fact as the trial of defendants is expected to take place, at Clearfield, next week.

D. W. MOORE,
Cash. Co. Nat. Bank, Clearfield.

TOUCHINGLY TRUE.—The Mobile *Advertiser and Register* says: "We do not remember to have read a poem more sweetly sympathetic and more touchingly true, than the following. It is brief, but its brevity detracts nothing from its beauty. Let every man who has a heart in his bosom, every gentle matron who would have a peaceful home, and every single man who would "go and do likewise," see what is

OWED TO PRINTERS.

When luckless printers stoop to credit,
And find too late that men won't pay—
What charms can soothe the scribes who edit?
What art can wash the doubt away?

The only art their case can better,
To wring the money when 'tis due,
To give repentance to the debtor,
And wring his pockets—is to sue.

PAINFUL ACCIDENT.—We regret to announce that our friend, Capt T. H. Lyons, met with a very severe accident, in Londonderry township, on Friday last, and narrowly escaped with his life The horse he was riding became unmanageable and ran away with him, unhorsing the Captian and throwing him with great violence against a tree. His injuries are of a serious character, and it will be some time before he will be in a condition to be removed to his home.

FOURTH OF JULY.—Will Bedford celebrate the 4th of July? That is a question we hear asked frequently, but no one seems to know enough about it to give an affirmative answer. Everywhere arrangements are being made for the "glorious Fourth," while not a word is said in favor of doing the same here. Shall we have a good old fashioned time on "the day we celebrate," on not? That's the question. Let some one move in this matter. We notice that at most places, Saturday has been fixed upon for the celebration, as the 4th comes on Sunday.

THE OTHER BURGLAR CAPTURED.—We learn by the Clearfield *Republican* that the third member of the band of bold burglars who robbed the Clearfield County National Bank, was arrested, last week, and lodged in the Clearfield jail. He was secured in St. Louis, by D. W. Moore, Esq., cashier of the bank, and Mr. James Tracy, a detective of that city. No money was found on his person. He was arrested at his house. His wife, who until recently did not know, what kind of business her husband was prosecuting, is said to be an excellent woman and a niece of Ex-Senator Henderson, of Missouri.

Cresson and Bedford Springs will be opened for guests on the 15th inst. Hollidaysburg, a healthier, and pleasanter, place than either, is open all the time.—*Hollidaysburg Standard.*

That is the toughest piece of blowing we have encountered for many a day, Bro. Traugh. "Hollidaysburg a healthier and pleasanter place than Bedford!" Pshaw! You are only joking. The keenest optics in the world could not discover even the outlines of that point. That Hollidaysburg is "open all the time," there can be no doubt. So long as health and pleasure seeking folks have a place like Bedford to come to, with her enchanting scenery, purest of air and health-giving waters, Hollidaysburg, no doubt, will remain "open" for all time to come.

CHURCH CONSECRATION IN FRIENDS COVE.—Trinity Reformed Church of Friends Cove, this county, was formally dedicated to the worship of the Triune God, on Sunday, June 6th, 1869. The day was charming and the house was crowded to its utmost capacity, and many were unable to obtain admittance. The services were conducted according to the beautiful Order of Worship of the Reformed Church. The church edifice is certainly one of the finest and most handsome in Bedford county. It is pleasantly located on an elevation in what is termed the lower end of Friends Cove, about five miles south-east from Bedford, on ground donated for the purpose by Mr. Isaac Diehl. The building is fifty-six feet in length and thirty-five in breadth. The audience chamber is twenty feet in the clear, that is, from floor to ceiling, and furnished with a choir gallery. A sweet-toned Meneely bell, weighing upwards of four hundred pounds, occupies a place in the handsome cupola. The architects, Messrs John Shafer, David Dibert and Abraham Barnhart, as well as the pastor and membership of the congregation, have cause for congratulation in their success. The whole expense of building and furnishing this truly beautiful church, we learn, was less than forty-five hundred dollars. On the morning of consecration a debt of nineteen hundred dollars was still resting upon it. This was fully provided for, the offerings of the people amounting to almost two thousand dollars. The church was thus given to God, *free of debt*, as should always be the case.

The pastor, the Rev. Wm. M. Deatrick, was assisted in these solemn and interesting services by the Rev. Dr. Gerhart, Rev. H. Heckerman, Rev. N. H. Skyles, and Rev. C. U. Heilman.

EDITORIAL JOY.—The editor of the Clarion *Democrat* added eight paying subscribers to his list and took in over two hundred dollars worth of filthy lucre, in one week!

That was a printers' "take" not to be sneezed at.

Whereupon the editor aforesaid becometh so elated that he imagines himself immensely rich, and talks of getting a power press and enlarging his paper!

Talks about the "*Clarion Notes*"—thereby meaning his greenbacks—and becomes elevated to such a high key generally, as to indite two lines of poetry—regular square-toed, unmistakable poetry of "dollars and dimes."

Just see what effect a little money has upon poor editors!

They cannot stand the pressure of a sudden greenback inflation.

They are not equal to the emergency, and when it cometh they are overwhelmed, muchly.

We were overcome, the other day, at the sight of a few stamps which a friend had borrowed to make his "ends meet."

But the stamps did not come over to us, and the sequel was sadness.

We once heard of a man who was so deeply affected by suddenly becoming possessed of a large sum of money that he drew himself away from it by means of a cord!

The "cords of money" were too many for him and a constitutional weakness made him flop.

We have no instance to record of an editor being similarly affected.

Such glorious sights are hidden from their eyes.

Perhaps it is well that this is thusly, for an editor is human and "a man for a' that."

But to think! An editor getting through the third sand rock with the pick of patient perseverance and striking—two hundred dollars!

Verily, there is joy in the sanctum when dunned delinquents rally to the rescue of the poorly paid printer!

How the heart of the printer leapeth with joy at the sight of a farthing that is honestly due him!

All printers are proverbially honest. Early "impressions" have made them so.

It a "rule" with them that is never broken, neither is the type thereof ever knocked into "pi."

TO OUR DELINQUENT SUBSCRIBERS.—We ask our subscribers, everywhere, to oblige us by the prompt payment of their accounts. Our business is all cash, and that, in almost every instance, *in advance*. Will not those who have taken the paper from Aug. 1865, 1866, 1867 and 1868, see the importance of paying for it, as we have earned our money, and not only need it, but *must have it*. By referring to our *terms* on the first page of the GAZETTE and the yellow slip of paper pasted on their paper every week with their *name* and *date*, (which gives the month and year their paper is paid to), shows at once how much is due us, which amount they should at once pay into the office, or remit us by mail, without delay. Every man who takes our paper and has not paid, knows that he justly owes for it, and should not subject the proprietors to the trouble and expense of sending, writing or dunning him, but should and would if he were morally honest, take pleasure in doing as he would others should do unto him.

Friends, we appeal to your sense of honor, on the principle, that the laborer is worthy of his hire.

DOUBLY-DYED DEMONS.—Through the aid of H. E. Thayer, Supt. Pinkerton's National Detective Agency, Phila., the city authorities of Altoona have ferreted out the existence of a secret oath-bound organization in that city, composed of rude ruffians and burly blackguards joined together for the purpose of destroying property. The *Vindicator* says, "developements of the most astounding character have been made, and yet more startling are expected." A number of arrests have been made and parties, in default of heavy bail, have been lodged in jail. Members of one of the fire companies are implicated. This disclosure accounts for the many fires that have occurred in that city of late. We have always thought the destructive conflagrations in that place were to be attributed to causes other than those of mere accident. We hope the scoundrels will meet with proper punishment.

"Where is Drake S. T. 1860 X?" We have heard this question asked many times, and for all we knew for a year past he might be dead. Recently, in New York, we called at his Laboratory in Liberty St., and there found this gentleman barricaded behind a tremendous pile of boxes distributing funds to a Sunday School Committee. Our business was to secure an advertisement. He said: "My dear sir, what is the use of advertising the Plantation Bitters? They sell better now than when I advertised at such enormous expense, and now I have not made a contract for a year. I have all this amount to give to the poor. To satisfy the Press, however, who have always been my friends, I think I will give you a little something to do again, for I have improved the Bitters greatly, and it may be well to have you let the people know it." And so he ran on in a happy, cordial, appreciative manner, showing us the wonders of his place and the cords of certificates. Everything is on a magnificent scale, and is done with neatness and promptness. While there we saw at least forty orders come in for these celebrated Bitters. Cases were being shipped to the four corners of the world. Drake is not dead, nor his Bitters either.—*Exchange Paper.*

COLBURN'S PATENT

RED JACKET AXE.

Is better than our regular shaped Axes for these reasons. First—It cuts deeper. Second—It don't stick in the Wood. Third—It does not jar the hand. Fourth—No time is wasted in taking the Axe out of the cut. Fifth—With the same labor you will do one-third more work than with regular Axes. Red paint has nothing to do with the good qualities of this Axe, for all our Axes are painted red. If your hardware store does not keep our goods, we will gladly answer inquiries or fill your orders direct, or give you the name of the nearest dealer who keeps our Axes.

BE CAREFUL
WHAT MEDICINES
YOU TAKE.
When you are exhausted by over work of head or hand, and feel the need of something invigorating, don't drink whisky or any intoxicating thing, whether under the name of Bitters or otherwise. Such articles give just as much strength to your weary body and mind as the whip gives to the jaded horse, and no more. Alcoholic stimulants are injurious to the Nerve-health, and are always followed by DEPRESSING REACTION. DODD'S NERVINE & INVIGORATOR is a Tonic and Gentle Stimulant which is not attended by Reaction. What it gains for you it maintains When it refreshes body or mind, it refreshes with natural strength that comes to stay. We are not recommending teetotalism in the interest of any faction; but long and extended observation teaches us that he who resorts to the bottle for rest or re-cuperation, will find, as he keeps at it, that he is kindling a fire in his bones which will consume like the flames of perdition Turn from it. Take a tonic that will refresh and not destroy. Dodd's Nervine is for sale by all Druggists. Price one Dollar. See book of Certificates that accompanies each Bottle jun18w4

READ! READ!! READ!!!
MIDDLETON'S
WONDERFUL PAIN CURE
A sure remedy for Rheumatism, Neuralgia, Lumbago, Growing Pains, Sprains, Bruises, Stiffnes, of the Joints and all similar diseases.
This wonderful remedy is composed entirely of vegetable ingredients. There are no injurious substances used in its manufacture.
For assurance of its excellent properties, read the following certificates:

BEDFORD, May 8, 1869.
I take great pleasure in giving my testimony to the value of "Middleton's Wonderful Pain Cure." I have been a martyr to Rheumatism For two months previous to Feb. 25th, last, I was suffering intensely with pain so severe, that during all that time I had not one night of comfortable sleep. I could not put my hands to my face, could not comb my own hair, nor feed myself; but after having the Pain Cure applied once, I found relief enough to give me comfortable sleep, and with its steady use, I continued to get better, and now at the end of ten weeks from its first application, I have comparatively free use of my hands, sleep well and can attend to business. It has done me more good than all other medicines I have ever used put together, and I cheerfully give this certificate of its value.
ELI M. FISHER.

BEDFORD, April 14, 1869.
Mr. W. W. Middleton,
This is to certify that I was taken with Rheumatism, in my right shoulder, on the evening of the 8th inst., so that I was unable to raise my hand to my face. I got some of your Pain Cure and applied it twice, and was entirely relieved. I would recommend to every one who suffers with Rheumatism to give it a trial and be cured.
Yours &c., A F. MILLER.

BEDFORD, May 17, 1869.
Mr. Middleton,
DEAR SIR:—I have used several bottles of your medicine in my family, and find it to be all you claim for it. Yours, truly,
JOHN HAFER.

BEDFORD, May 13, 1869.
This is to certify that I have used "Middleton's Pain Cure," for Rheumatism, and was very much benefited by it. JOHN HARRIS.

BEDFORD, May 18, 1869
This is to certify that I have used Middleton's Liniment, for the Rheumatism which I had in my right shoulder so bad that I could not get my hand to my head without great pain, and after a few applications was entirely relieved.
L. F. DART.

BEDFORD, May 1, 1869.
Mr Middleton,
Dear Sir:—Mrs. Bowser was in much suffering for some four weeks with Rheumatism, and got some of your Pain Cure, and the first night I applied it it eased the pain; and after keeping on using it for two weeks, she was restored to health. I feel it to be my duty, as it is a pleasure, to write this recommendation for the benefit of others. JACOB BOWSER.

BEDFORD, May 16 1869.
Mr W. W. Middleton:
Sir—I procured a bottle of your Liniment for Rheumatism, and it gives me great pleasure in saying that after using it for two days, my rheumatism was completely relieved My sister was suffering, at the same time, with Inflamatory Rheumatism in her right hand and wrist—after using it for several days she was relieved. I consider it the best remedy I ever heard of.
JOHN KEEFE

BEDFORD, May 24, 1869
This is to certify that I have used one bottle of Middleton's Liniment, for Rheumatism, and think it a good cure, and would recommend it to all persons that are afflicted with the above disease.
AUGUSTUS CARVER.

BEDFORD, May 26, 1869.
Mr. Middleton:
Sir—I procured one bottle of your medicine and used one-half of it for Rheumatism, which effected a permanent cure up to this time. I cannot hesitate in saying that it is the best remedy I ever used. A. B. CARN.

This excellent PAIN CURE is prepared only by W. W. MIDDLETON, Bedford, Pa., to whom all orders for the medicine should be addressed.

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

G. V. N. ANDREWS,

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. NATURE'S GREAT RESTORER.

SCHEETZ'S
CELEBRATED
BITTER CORDIAL,

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

THE GREAT

ZINGARI BITTERS.

A Safe Blood Purifier,
A Splendi Tonic,
A Pleasant Beverage,
A CERTAIN CURE
AND
PREVENTIVE OF DISEASES.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. CHEOPSUS, who, after years of trial and experiment, discovered the Zingari Herb—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the Zingari Bitters is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Cholic, Colds, Bronchitis, Consumption in its first stage, Flatuleney, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S
HAIR VIGOR,
FOR THE RENOVATION OF THE HAIR.
THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,
For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.
They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.
Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—
For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.
For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or GREEN SICKNESS, Bilious Colic and Billious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.
For DYSENTERY or DIARRHŒA, but one mild dose is generally required.
For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.
For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.
For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.
As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.
An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*
Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*
MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,
FOR PURIFYING THE BLOOD,

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.
Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.
Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhoea or Whites, Uterine Ulcerations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.
